14	The Big Setup	Earn three stars on all of The Big Setup levels.

21	Ham 'Em High 13-12	You cannot see this egg until you get it. Zoom out so that you see the entire hill that you sit upon. Send a white bird to the left and quickly drop an explosive egg to reveal the Golden Egg.

GOLDEN DROID LOCATIONS

STAGE	INSTRUCTIONS
Tatooine 1-13	Located at the top of the screen. Deflect blaster shots into the Golden Droid using the Black bird's force push. Throw away the Red bird so you don't accidentally kill the pig shooting lasers.
Tatooine 1-25	Located at the bottom of the screen. Fling the Red bird to the bottom, destroying the bush in front of the metal bit, then use the Black bird to force-push the metal bit onto the Golden Droid.
Tatooine 1-31	Located at the back of the stage. Force-push the asteroids to the right, then fling another bird upwards and force-push the asteroid onto the Golden Droid.
Death Star 2-18	Located at the bottom of the screen. Shoot your Yellow bird off-screen to the left. He won't be gone yet. There is a tunnel below the area where the egg is; wait until your Yellow bird is below the entrance of the tunnel and have him shoot his blaster to reflect the shot into the egg.
Death Star 2-33	Located above the main structure. Use one or two Yellow birds through the small gap on the north side of the level, shooting the Droid and its enclosure with the blaster.
Hoth 3-17	Located at the top-right corner of the level. Bounce Han's blaster off the miniature tower way above the AT-AT.
Hoth 3-36	Located at the top-right corner of the level. Use the Pink bird's tractor beam to lift the stone slab right of the Golden Droid, then use the Yellow Bird's blaster to shoot the Droid.
Cloud City 4-14	Located in the middle of the level. Toss the Chewbacca bird nearly vertically to cause him to fall onto the Golden Droid.

PATH OF THE JEDI EPISODE

STRATEGIES & TIPS

- Use the Force—In Angry Birds Star Wars, each bird has special abilities that can help you clear areas better. After you throw your bird, tap the screen to use their special power.
- Look at Your Surroundings—Many puzzles are too big to see at a glance. Pinch the screen to zoom out and see more of the level instead of wasting a bird on an exploratory mission.
- Don't Always Avoid Obstacles—Enemy lasers can impede your flight path and send you flying in different ways. This isn't always a bad thing—you can use these to send your birds flying in ways you might not have thought of before!

STRATEGIES & TIPS

- Properly Plan for Battle—No matter what happens at the end of a battle, every troop you take with you into battle will be lost at the end, even if they are unharmed by fighting. Think carefully about your opponent's strength and send out soldiers accordingly before deploying your troops for battle.
- Scout Ahead—Even though you can't see what troops the enemy will have in single-player mode, you can scout ahead by sending a few weak units at an encounter. Send some expendable troops at your enemy to learn their layout, then send your real force out after you know what they're capable of.
- Balance Your Attack—Try not to stretch yourself too far towards offense or defense. Even if you can easily destroy any enemy, it won't matter if others can quickly destroy you! Make sure your town hall and resource gatherers are guarded by cannon-fire so you can protect yourself while your army attacks.
- Clear Smart Space—Removing larger objects requires more resources and sometimes isn't the best way to advance. Try to clear out smaller objects and use that space instead.
- Boring Upgrades—While they aren't very exciting, upgrading your resource collectors over your armies will give you more total resources, giving you a stronger army overall.

PHONE NUMBERS

Dialing 'D' for Darkness isn't the only number to punch on a telephone. Sure, you called every number you found on those hard-to-get Collectibles, but you certainly haven't found all of the phone numbers. Pay close to attention to the environment as you hunt down Uncle Paulie. Chances are, you overlooked a phone number or two without even knowing it as you ripped out a goon's heart. All 25 'secret' phone numbers are scattered throughout New York and can be seen on anywhere from flyers and storefronts to garbage cans and posters. Dial 18 of the 25 numbers on a phone—in no specific order—to unlock the final secret of the game.

MINECRAFT

XBOX 360/MOBILE/PC

TIPS & STRATEGIES

- Don't Go Out at Night—Once night comes, the world becomes full of creepers and other monsters. Even with the greatest equipment you can quickly be destroyed outside of your fortress.
- Play with Friends—If you can, play with your friends: you'll be able to build things, gather resources and take out enemies faster, giving you more time to build elaborate fortresses.
- Fortify your Fortress—Obviously, you should be buffing your fortress as much as possible to keep monsters away and keep your fortress lit to keep monsters from spawning inside. Also, try and build a series of rooms separated by doors just in case a monster does appear inside, giving you the chance to run away.
- Bring a Bucket of Water—Be sure to always have a bucket of water with you when you're mining. Build a bucket with three iron ingots in a small "v" shape, and use it to pick up and place water spawn blocks. You can put out fire, extinguish lava and save you if you fall into a lava lake. You can also create a water fall to swim up and down steep cliffs and create a stream to push back monsters!
- Don't Dig Straight Up or Down—When digging, dig at an angle instead of straight at your feet. You might open up a cavern or lake of lava, causing you to fall straight to your death. Also, if you're digging upwards, you might unleash a stream of lava or water, causing you to drown. Dig in an angle and try to form a spiral shape so you can run away or won't plummet straight to your death.

SKYLANDERS: GIANTS

NINTENDO WII U

SKYLANDERS SPECIFIC QUESTS

Skylanders Giants includes quests specific to each Skylander as a way to improve them. Here we list each Skylander with their quest and tips on how to complete it.

SKYLANDER	QUEST	HOW TO COMPLETE
Bash	On a Roll: Defeat 10 enemies with one roll attack.	If you have trouble completing this quest, opt for the Pulver-Dragon upgrade path.
Boomer	On a Troll: Defeat five enemies with one kicked Troll Bomb.	Once you have Troll Bomb Boot, look for a group of tight-knit Chompies. "Chapter 1: Time of the Giants" has several groupings of five Chompies.
Bouncer	Stay on Target!: Target enemies 100 times with laser-guided Shoulder Rockets.	You must purchase the Targeting Computer upgrade for Bouncer's Shoulder Rockets.
Camo	Garden Gorger: Eat 10 watermelons.	If you aren't in a rush to complete a level, switch to Camo when a watermelon appears.
Chill	Ice Sore: Defeat six enemies with one Ice Narwhal attack.	Try to find six enemies that are grouped together at a medium distance, such as in an arena.
Chop Chop	Stalwart Defender: Absorb 1,000 damage with your shield.	To complete this quest safely, block attacks from a small group of weaker enemies near a food item (just in case they sneak in some unexpected damage).
Crusher	High Roller: Defeat 100 enemies with boulders.	Use Rockslide to defeat enemies until you have completed this quest.
Cynder	On the Haunt: Defeat 50 enemies with your Ghost Ally.	Ghost Ally does not inflict much damage so focus on saving low-health enemies, like Chompies, for the ghost to attack. The Ghost attacks while Cynder is flying, so consider circling an area with Chompies.
Dino-Rang	Fooderang: Pick up 20 food items with boomerangs.	After acquiring Sticky Boomerangs, use it to grab any food found in the area. In the Arena Challenges on Flynn's Ship, the audience throws food items into the arena between rounds.
Double Trouble	Big Bomb Trouble: Defeat 10 enemies with one Magic Bomb attack.	Find a group of 10 or more Chompies and set off a bomb. A good place to earn this is any of Brock's Arena Challenges with regular Chompies.
Drill Sergeant	Drill Skill: Defeat Drill-X without changing Skylanders.	Drill Sergeant must defeat Drill-X (the final boss in "Chapter 11: Drill-X's Big Rig") solo. Use Adventure items (like Healing Potion) to survive the battle. You can complete it on Easy difficulty with a fully-upgraded Drill Sergeant.
Drobot	Feed the Burn: Defeat 50 enemies with Afterburners.	It's easier to hit enemies with Afterburners when Drobot first takes off.
Eruptor	Pizza Burp: Eat 10 Pizzas.	If you want to have a greater chance of encountering a pizza, equip Lucky Wheel of Health in the Luck-O-Tron.
Eye-Brawl	Gold Search: Collect 5,000 gold with the eyeball detached.	Remember to detach Eye-Brawl's eye before collecting any treasure from chests or enemies.
Flameslinger	Circular Combustion: Defeat 10 enemies with one column of Fire Flame Dash.	There are two upgrades you can get to help you on this quest. The first is Column of Fire. The second is Supernova in the Pyromancer Path.

SKYLANDER	QUEST	HOW TO COMPLETE
Flashwing	Let It Shine: Defeat 20 enemies with one Crystal Lighthouse.	Since Crystal Lighthouse is stationary, this is a tricky quest. The best candidate for this is one of the arena maps, particularly Kaos' Royal Flush (the second challenge, Birthday Bash). Set up the Lighthouse in the middle of the birthday cake.
Fright Rider	Delving Throw: Toss 50 enemies into the air.	The power to use for this quest is Burrow Bomber. Hit any medium or small enemy with the attack to pop them up in the air and register a toss.
Ghost Roaster	Grave Circumstances: Defeat 100 enemies with Skull Charge.	Repeatedly use Skull Charge to attack enemies and you should complete this quest in no time.
Gill Grunt	Anchors Away!: Defeat six enemies with one Anchor Attack.	Line up a group of Chompies with your Anchor Cannon and let loose to complete the quest. If you have Series 2 Gill Grunt, Anchors Away! Makes completing the quest easier.
Hex	Noggin Knocker: Knock away 100 enemies with your Skull Rain.	Once Hex has Skull Shield, allow enemies to get within melee range while Hex is charging that attack. If they get too close, they get knocked back, tallying a point for this quest.
Hot Dog	Animal Aggravator: Scare away 20 birds.	Look for the small birds pecking at the ground in each level. These birds are the ones you need to scare with Hot Dog for this achievement. Chapter 13: The Oracle and Chapter 1: Time of Giants both have plenty of birds.
Hot Head	Buggy Breakthrough: Destroy 20 walls in Hot Rod mode.	The walls this quest is referring to are the walls that can only be crushed by a Giant or a bomb. Whenever you encounter one of these walls, switch to Hot Head. A good spot with plenty of these types of walls is Chapter 2: Junkyard Isles.
Ignitor	Tinder Trekker: Travel 26,000 feet in Flame Form.	Use Flame Form often and this number will accumulate quickly.
Jet-Vac	Bird Cleaner: Suck up 50 birds in your Suction Gun.	Look for tiny birds on the ground throughout most levels with green grass. Cahpter 13: The Oracle and Chapter 1: Time of Giants both have plenty of birds.
Lightning Rod	Current Event: Defeat 10 enemies with one Grand Lightning strike.	You need to find a group of 10 Chompies in one area and use the Grand Lightning to blast them all. Choosing the Lord of Lightning Path makes this easier since the Grand Lightning attack lasts longer.
Ninjini	Bottle Beatdown: Defeat 5 enemies within five seconds of exiting your battle.	Transform Ninjini into the bottle and move into a large group of small enemies. Follow up the bottle attack with her swords.
Pop Fizz	Rampage: Do 200 HP of damage in a single run in Beast Form.	Transform into Beast Form in a large group of enemies and destroy everything in sight to complete the quest.
Prism Break	Bifurcation Sensation: Defeat 100 enemies with double refraction.	A beam must pass through two Shards before hitting an enemy to count. Unlock the Chained Refractions upgrade and place plenty of Crystal Shards. Fire an Energy Beam through them to indirectly take out nearby enemies.
Shroomboom	Lunching Launch: Eat a watermelon while performing a Self-Slingshot!	When you find a watermelon, blast Shroomboom through it with the Self-Slingshot power to complete the quest.
Slam Bam	Ice to Meet You: Trap 100 enemies in your Ice Blocks.	You do not need to damage or freeze enemies with Ice Block; it counts if you just hit them with the Ice Block.

ats, Achievements and Trophies.indd 472 7/10/13 9:59 A

SKYLANDER	QUEST	HOW TO COMPLETE
Sonic Boom	Sonic Squeak: Babies defeat 50 enemies.	Upgrade Sonic Boom's egg attack powers and keep babies summoned at all times.
Sprocket	Mined Your Step: Defeat 50 enemies using the Landmine Golf attack.	Once you unlock the Landmine Golf ability, use it often. A quick way to complete this quest is to load up one of the easier Arena levels.
Spyro	Full Charge: Collect 3 gold, eat 1 food item, and defeat 2 enemies in 1 Sprint Charge.	Look for two low-health enemies (Chompies are a good choice) as well as some food and gold on the screen. Purchase the Sprint Charge upgrade to increase the distance of Spyro's sprint.
Stealth Elf	Stealth Health: Gain 1,000 HP while stealthed.	You need to first purchase Sylvan Regeneration. Once you do, you get credit towards the 1,000 HP every time you heal while Stealth Elf is in the Stealthier Decoy mode.
Stump Smash	Meganut Bowling: Defeat five enemies with one Meganut.	Meganuts are powerful and bowling over five Chompies with one is no problem. The upgrade Acorn Croquet makes this much easier to achieve since you can whack the acorn directly at enemies.
Sunburn	Immolation Itinerant: Travel 1 mile using Immolation Teleport.	Use Immolation Teleport regularly to tally up the distance towards one full mile. The quickest way to complete this quest is to unlock the Flight of the Phoenix and the Guided Teleportation upgrades.
Swarm	Swarm Feelings: Defeat 100 enemies in Swarm Form.	While you can complete this quest without pursuing the Wasp Stormer Path, it's extremely difficult and you must focus on weaker enemies.
Terrafin	Land Lubber: Eat 20 food items while burrowing.	Once you have Surface Feeder, stay underground and collect Food Items as they drop.
Thumpback	Beached Whale: Defeat 8 enemies with one Belly Flop.	Upgrade Thumpback's Belly Flop attack with Slippery Belly. If you are having trouble getting this quest, invest in the Up Close and Personal path to further increase the strength of the Belly Flop attack.
Tree Rex	Timberrrrr!: Defeat 50 enemies by landing on them. Chompies don't count!	Unfortunately, Elbow Drop doesn't work for this quest. Tree Rex must crush enemies by landing on them. The best way to do this is to find a bounce pad in an area with plenty of Chompies.
Trigger Happy	Holding Gold: Save up 50,000 Gold.	This is one of the hardest quests any character has in the game. Not because it's difficult, but because it will take some time to collect 50,000 Gold.
Voodood	Trickwire: Defeat six enemies at once with your tripwire.	Find a group of six or more low-health enemies, like Bone Chompies, and set up the Tripwire near them. Chapter 1: Time of the Giants has several good spots to try for this quest.
Warnado	Chompy Catcher: Catch 100 Chompies in tornadoes.	The best place to do this is in the Arena Challenges. Head to any of the early challenges and there are plenty of Chompies. High Winds also helps gather up more Chompies at once.
Wham-Shell	Irate Invertebrate: Defeat 6 enemies with one Poseidon Strike.	To get the most out of Poseidon Strike, invest in the Captain Crustacean path. Once you have unlocked Mace of the Deep, go for this quest by finding a group of Chompies and blasting them.

SKYLANDER	QUEST	HOW TO COMPLETE
Whirlwind	What does it mean?: Create 50 double rainbows.	Unlock the Duel Rainbows ability, then fire out a Tempest cloud and following up with a Rainbow of Doom. Rainbows made via the Double Dose of Doom power don't count unless they hit a Tempest Cloud. Triple rainbows created via Triple Tempest count as one double rainbow.
Wrecking Ball	Competitive Eater: Swallow 100 enemies.	Purchase Enemy Slurp and swallow as many enemies as you can. Any medium-sized and smaller enemy can be eaten.
Zap	In the SLimelight: Defeat 50 enemies by electrifying them in Sea Slime.	Use Sea Slime to electrify enemies regularly and you'll complete this quest in no time.
Zook	Spore It On: Absorb 1,000 points of damage with a Foliage Barrier.	Use Foliage Barrier often and you will complete this quest quickly.
